SPRINT 2 Retrospective

During sprint 2 retrospective, some ideas have been discussed and at the end they have been written down as the following:

What we should start doing:

- Improve the execution planning of the project;
- Use more the books provided by the university, as they represent a trustable source of information;

What we should keep doing:

- Use GitHub as a way of sharing the code and documentation;
- Use Trello for dividing the work and keeping track of the progress;

What we should stop doing:

- Get distracted while working;
